

TITAN

About Us

Fazi was founded in 1991 and today it is one of the leading manufacturers of electronic roulettes in the world. During this period, we have greatly improved all departments, never stopping our growth and modernization over the years.

Constant demands for more sophisticated machines from our clients and users, as well as new trends on the market, made continuous improvement the main vision of the future of our company. Our expansion plan for the future consists of conquering new international markets, and at the same time investing in our own capacities.

TITAN

Titan was born as a project inspired by our clients' needs, players' preferences and our rich experience in manufacturing electronic roulettes.

New luxurious design, combined with high-class carefully integrated devices, places Titan Roulette on the top of the list of the most desirable machines, allowing players to experience the game on the whole new level.
